

# Countries Intending to Phase-out Fossil Fuel Vehicles

Including Targeted Phase-out Year and Share of German Car Exports\*

\*The percentages refer to the 2019 gasoline and diesel car exports of German manufacturers to a given country as a share of overall German conventional car exports. Additional countries with phase-out plans (collectively representing 0.8% of German car exports): Ireland, Iceland, Israel, Slovenia (2030); Sri Lanka (2040); Costa Rica (2050).
